

KN95 Protection Face Masks

Applied Industrial Technologies

Applied® is now stocking KN95 masks to help keep our customers safe and healthy!

A KN95 respirator is a respiratory protective device designed to achieve a very close facial fit and very efficient filtration of airborne particles. The 'KN95' designation means that when subjected to careful testing, the respirator blocks at least 95% of very small (0.3 microns) test particles. If properly fitted, the filtration capabilities of KN95 respirators exceed those of standard face masks.

If your respirator is damaged or soiled, or if breathing becomes difficult, you should remove the respirator, discard it properly, and replace it with a new one. To safely discard your KN95 respirator, place it in a plastic bag and put it in the trash. Wash your hands after handling the used respirator.

Features and Benefits

- Suitable for people of different body types
- Free adjustment, retractable hood and tight wrap for overall protection
- Non-woven, skin-friendly fabric
- Low respiratory resistance

Item No.	Description
117224963	MSAF_117222191 KN95 MASKS 20 PER BOX
117252615	MSAF_KN95 4PLY FACE MASK
117222206	MSAF_KN95 MASKS
117247649	MISC_KN95 - MASK

How To Use

STEP 1

Tear the outer packaging and open the mask

STEP 2

With the nose bridge part facing up, place it above your nose and mouth

STEP 3

The upper layer covers the nose, the lower layer covers the chin, and the ear strap is pulled behind the ear

STEP 4

Gently pinch the bridge of the nose part so that the mask fits the face
