

Reusable, Form-Fitting Face Masks

Applied Industrial Technologies and United Glove

Applied® has partnered with United Glove to stock Seamless 3D Form-Fitting Masks. They're made with antibacterial Copper CuTEC® technology and a knit-in filter pouch for added filtration material. These innovative masks offer a seamless fit to cover your mouth and nose. Their nylon / spandex / copper composition also makes them washable and reusable!

Features and Benefits

- Manufactured using Copper CuTEC® technology – inhibiting bacterial growth for the wearer
- Knit-in filter pouch to hold added filtration media / fabric
- Seamless 3D form-fitting, light weight construction
- Washable and reusable
- Made in the U.S.A.

Laundering Guidelines

- Recommended that the mask be machine washed
- Water temperature not to exceed 160°F
- Do not use bleach
- Tumble dry at 140°F for maximum hygiene

Product of:

Item No.	Description
117216248	MSAF_CUTEC N-MASK

CAUTION – It should be noted, that unlike common nonwoven surgical masks, knit masks do not have virus and pollen filtration functionality. Their main use is for prevention of spray from coughing / sneezing and for reducing exposure to allergens. Copper CuTEC® products are a supplement to and not a substitute for standard infection control practices.
