Applied Industrial Technologies Announces its New 2018 / 2019 Product Catalog *Includes More Than 31,000 Industrial & Maintenance Products*

CLEVELAND, OH (July 24, 2018) – Applied Industrial Technologies (NYSE: AIT) has introduced its new 2018/2019 Applied® Product Catalog with more than 31,000 products, including bearings, belts, hoses, motors, drives, power transmission products, hydraulic and pneumatic components, tools, maintenance products, safety items, and much more. Applied has selected its most popular products for this giant print catalog, representing more than 190 trusted manufacturers.

Included in the Applied Product Catalog is a valuable resource section with 48 pages of formulas, conversion tables, fluid power troubleshooting guides, and other MRO tips and information. The print version of this new catalog is available for free at Applied service centers around the country, or by request online at www.applied.com/requestacatalog.

The digital version of this catalog is available as a convenient app on iTunes® and Google Play™. Simply search “Applied Product Catalog” and easily search for products, videos, drawings and enriched content with direct links to the main website for easy ordering. Shop online with instant access to more than 2.5 million products and check real-time inventory, specifications and pricing. Registered users can view contract pricing and receive early notification of new products and special promotions.

The entire catalog is also available as a downloadable PDF through the mobile app or online at <https://catalog.applied.com>. Or, call **1-866-351-3464** to request your copy.

About Applied®

Founded in 1923, Applied Industrial Technologies is a leading distributor of bearings, power transmission products, engineered fluid power, specialty flow control solutions, and other industrial supplies, serving MRO and OEM customers in virtually every industry. In addition, Applied provides engineering, design and systems integration for industrial and fluid power applications, as well as customized mechanical, fabricated rubber, fluid power, and flow control shop services. Applied also offers storeroom services and inventory management solutions that provide added value to its customers. For more information, visit www.applied.com.
